

Ganesh Ankush Bhojane

Full Stack .NET Developer

+91-7507704228 | ganeshbhojane1712@gmail.com | Mumbai, INDIA |

www.linkedin.com/in/ganesh-bhojane-4a47361a3/ | <https://github.com/Ganeshbhojane17>

Results-driven .NET Developer with a proven track record of designing, developing, and maintaining scalable web applications. Committed to delivering high-performance, user-centric solutions through clean architecture and agile methodologies. Experienced in modernizing legacy systems and optimizing workflows to drive business efficiency and technical excellence.

TECHNICAL SKILLS

Languages & Frameworks: C#, ASP.NET MVC, .NET Core, Web API, Entity Framework, Dapper, Microservices, system Design.

Frontend Technologies: React.js, AngularJS, jQuery, AJAX, HTML5, CSS3, Bootstrap.

Database Management: MS SQL Server, MySQL.

Tools & IDEs: GitHub, Postman, **GitHub Copilot**, Visual Studio, Vs Code

WORK EXPERIENCE

- BUSINESSNEXT – Acidaes Solutions PVT LTD. - Software Engg. May 2026 – Present**
- Customize and enhance enterprise CRM solutions using C#, ASP.NET Core, SQL Server, XML, and XSLT.
 - Develop CRM workflows, business rules, and customer-specific modules based on functional requirements.
 - Design and optimize SQL queries, stored procedures, views, and functions to improve application performance.
 - Participate in code reviews and contribute to improving development standards and best practices.
 - Analyze and resolve production issues while ensuring application stability and performance. Actively participated in daily stand-ups, sprint planning, and retrospectives within an Agile environment.

- JeannyPr Softech PVT. LTD - Full Stack .NET Developer Sept 2023 – May 2026**
- Enhanced School Management Software(ERP) and Website Builder project by implementing new functionalities and features using ASP.NET MVC, .NET Core, SQL Server, Web Api, Angular.js, and JQuery.
 - Customized modules for student management, staff management, fee management, attendance systems, academic report cards, and admissions based on school-specific requirements.
 - Modified and enhanced existing functionalities to adapt to evolving client needs and updated educational workflows.
 - Resolved bugs and application issues reported by clients and internal QA teams, ensuring a seamless user experience.
 - Actively participated in daily stand-ups, sprint planning, and retrospectives within an Agile environment

PROJECTS

- 1) School Management Software (Scientific Study) – JeannyPr Softech PVT. LTD.**
- The School Management Software is a comprehensive web-based application designed to manage the entire operations of educational institutions. The system covers various modules including Student Management, Staff Administration, Admissions, Fees Management, Academics, Attendance, and Online Classes
 - A key component of this application is the Academics Module which includes an automated Report Card Generation System. This system performs complex calculations for: Marks,

percentage, rank, grade, remark

- Technology Used** - C#, ASP.NET MVC , ASP.Net web Api, JQuery, Angular.js, MS-Sql, Dapper, AJAX, HTML, CSS, Bootstrap.
- 2) College ERP Modernization (Legacy Migration) – JeannyPr Softech PVT. LTD.**
- Spearheaded the transformation of a legacy ASP.NET MVC (v4.5) system into a high-performance .NET 10 application, improving system speed and security.
 - Implemented **JWT (JSON Web Tokens)** for secure, stateless authentication, replacing older session-based security models.
 - Integrated **GitHub Copilot** into the development lifecycle to refactor legacy code, increasing development speed and ensuring modern C# coding standards.

-Technology Used - .NET 10, Dapper, SQL Server, JWT, GitHub Copilot.

- 3) Website Builder Software – JeannyPr Softech PVT. LTD.**
- The Website Builder is an interactive web-based platform that enables users to create fully functional, customized websites through an intuitive drag-and-drop interface.
 - The system allows users — with or without technical knowledge — to design and publish websites using a collection of pre- developed reusable components such as Headings, Paragraphs, Headers, Footers, Images, Videos, and Forms.
 - **Technology Used** - C#, ASP.NET MVC CORE , JQuery, React.js, MS-Sql, Dapper, AJAX, HTML, Bootstrap.

- 4) Personal Project: eVideoPrime – Video Streaming Platform**
- **Project Overview:** Built a web-based video streaming platform similar to Netflix that allows users to watch movies and shows in different languages while providing a management dashboard for admins and content producers
 - Used Clean Architecture and DDD to keep the code organized, making it easy to add new features like different subscription tiers or content categories without breaking the system.
 - Created a smooth interface where users can browse global content, manage their own watchlists, and stream videos seamlessly.
 - **Technology Used** - .NET Core Web API, SQL Server, React.js.

CERTIFICATIONS

- ASP.NET Core Certification Training** - ScholarHat (Issued: Nov 2025 | ID: D1GY151125)
- React.js Certification Training** - ScholarHat (Issued: Feb 2026 | ID: RFNT100226)

EDUCATION

Bachelor Of Engineering – Mumbai University	- 71%
H.S.C. – Maharashtra Board	- 71%
S.S.C. – Maharashtra Board	- 87%
